Region 8 needs help with logistics work for the Gold King Mine spill. Is there any chance (*with your supervisor's approval of course*) that you could possibly deploy to Region 8. They could use help now, and I anticipate that they will need our help for at least the next couple of months. Please let me know of your availability as soon as you can. I will share more details as I have them – just checking your interest and availability at this point. Thanks.
